Made in Switzerland

# PRODUCED IN SWITZERLAND

## 200 years traditions & innovations

Swiss Energy Pets food for cats and dogs is recognizable for its authentic Swiss hallmarks: ecologic production, top-quality, natural ingredients.

The products are manufactured exclusively in Switzerland by a well-established factory of animal feed with 200 years of manufacturing experience. The manufacture of home pet food alone has a history of several decades. Swiss veterinarians and food engineers have developed with care these products as complete nutritional solutions for domesticated animals, and now we can bring Swiss Energy Pets to your customers.

The production of Swiss Energy Pets food is certified by associations Swiss Label and Swiss Feed Production Standard.

# SWISS PET SOLUTION

Your Swiss supplier  
for high-quality pet food

As more and more animals are becoming sensitive to certain foods (causing skin and intestinal problems), our recipes are completely free of soy, wheat and other cereal grains containing gluten (spelt, barley, rye, etc.).

We use 100 % raw materials for the health of your furry friend and combine them to produce excellent quality food. Depending on the variety, Swiss Energy Pets food contains rice, potato or sweet potato and high-quality meat, carefully complemented by vegetables, oils and other delicious ingredients.

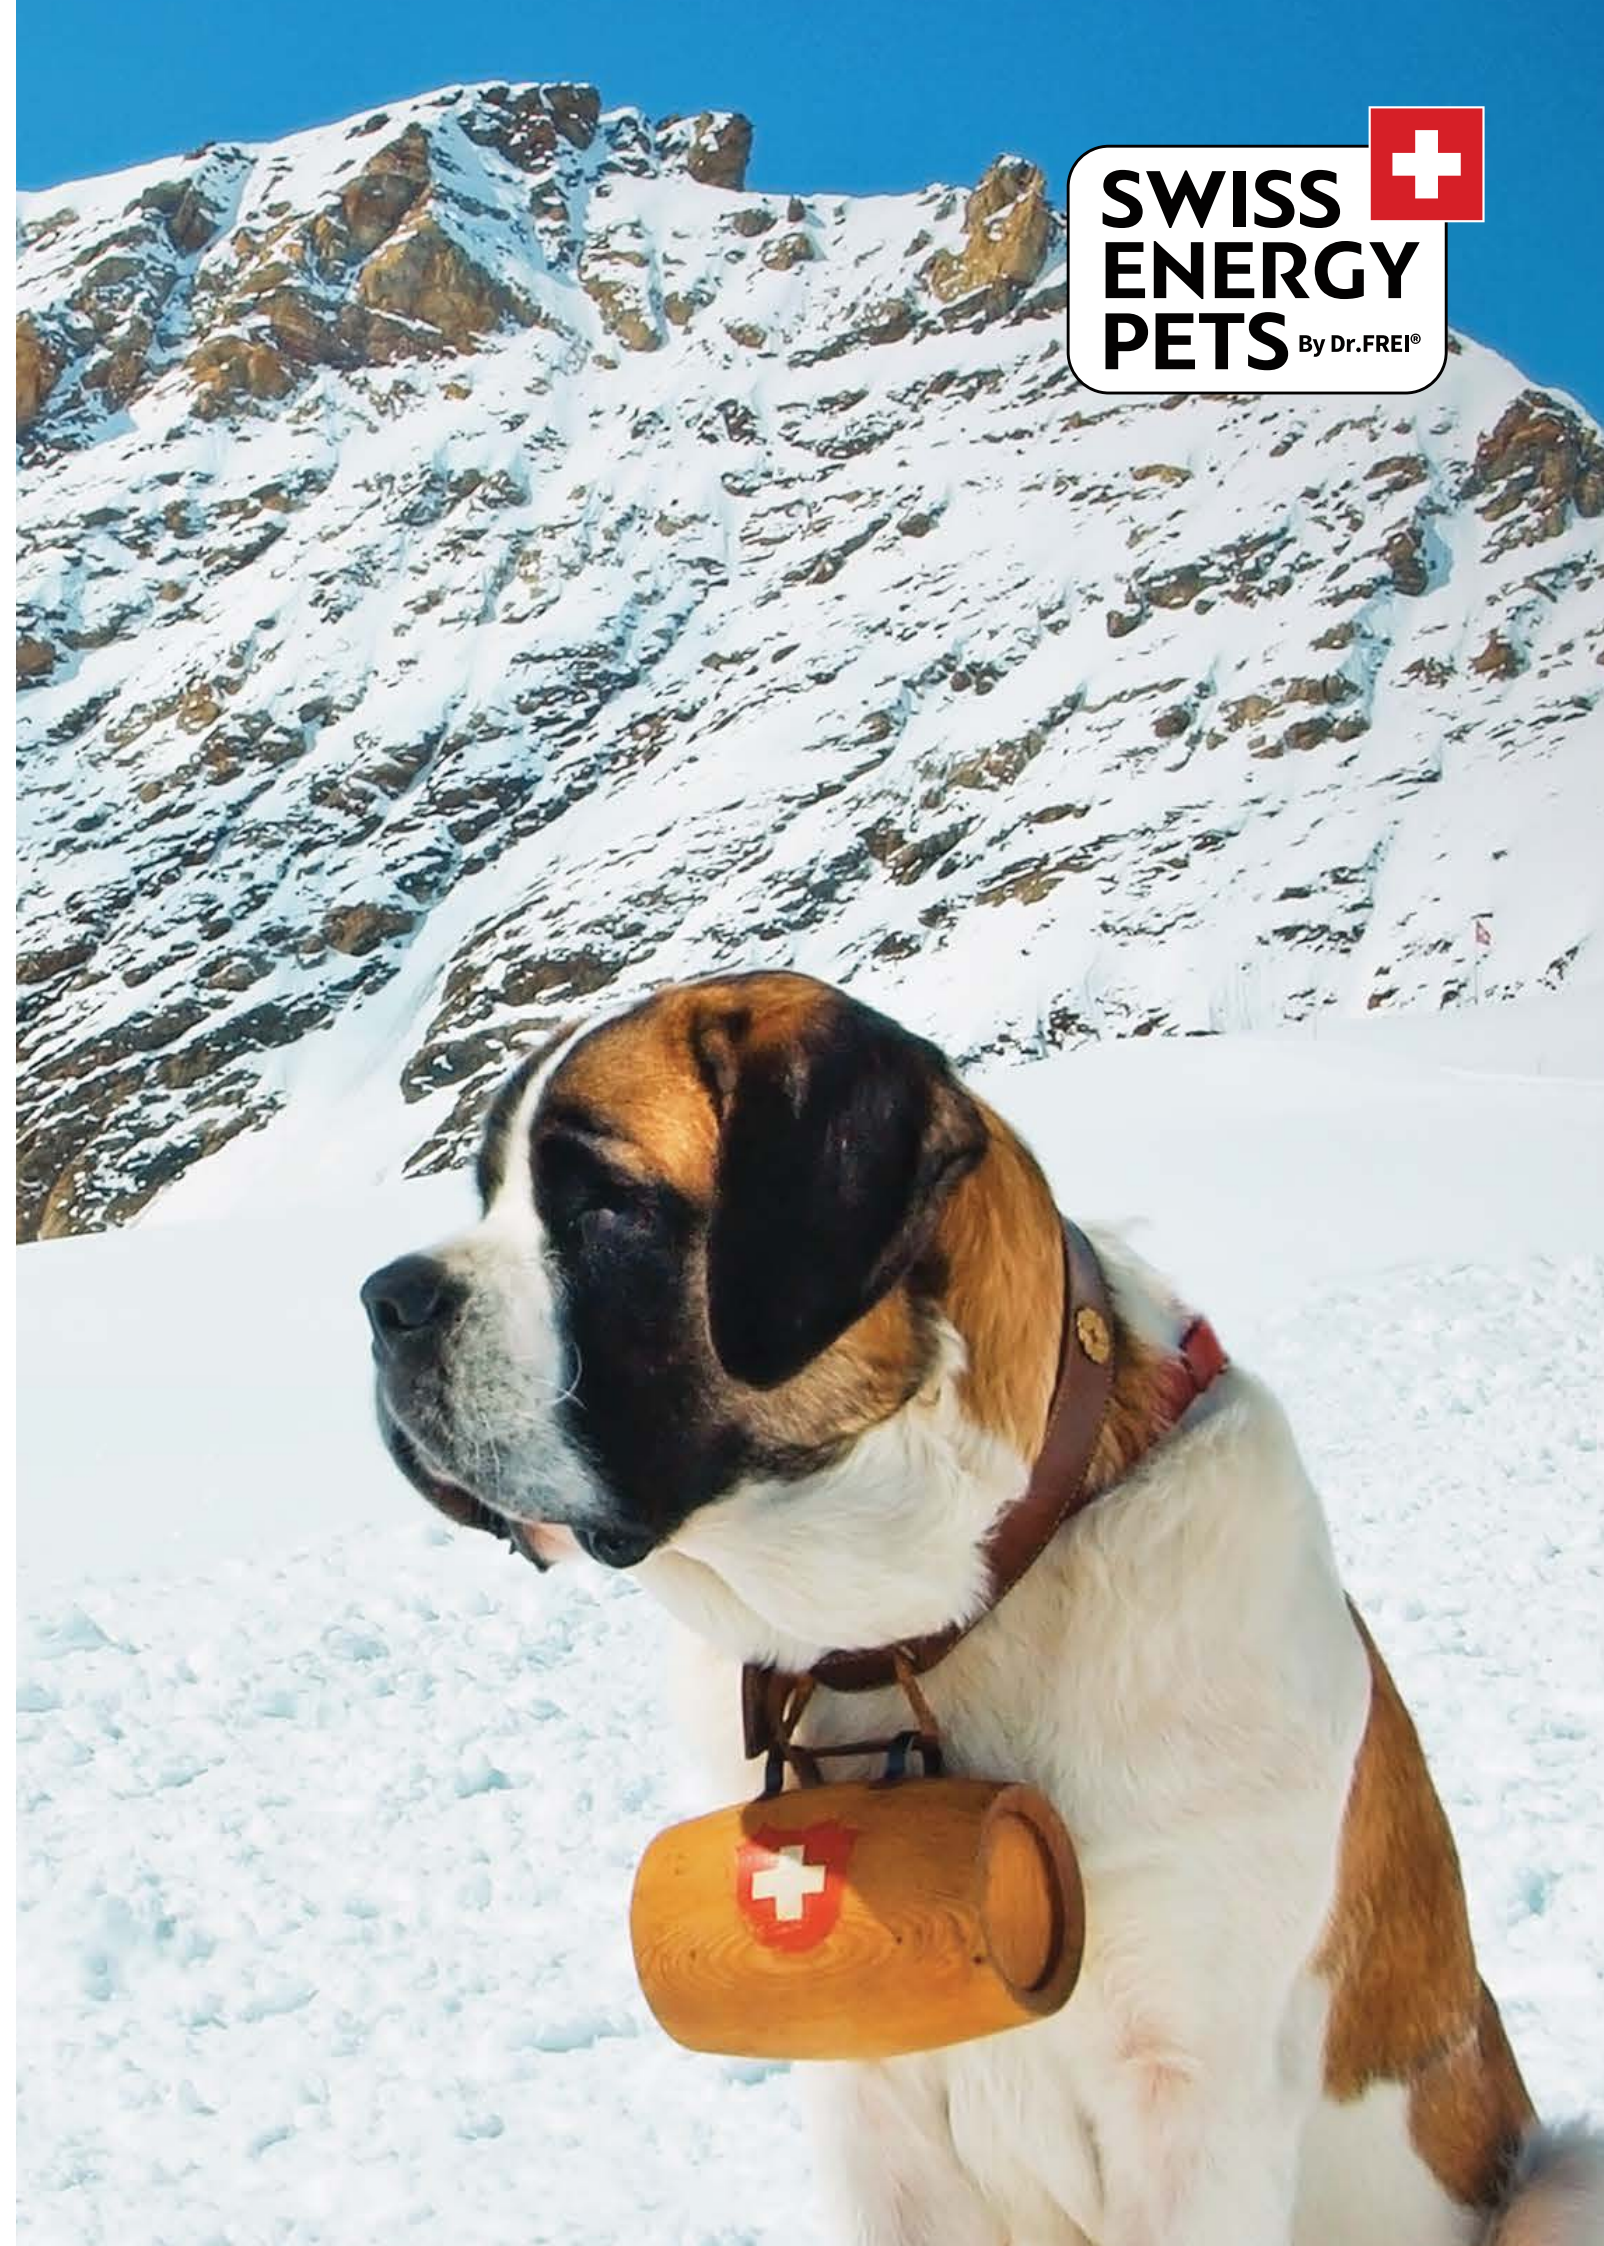

**GMO Free**

Out of love and respect for nature and animals, we do not use any genetically modified raw materials.

**OPTIMAL Cooking Process**

Our optimal cooking process ensures that our pet food is prepared in a way that preserves all its essential ingredients and additives. Any overcooking that can remove natural nutrients is avoided, which therefore guarantees a balanced intake of nutrients. Most notably, our process breaks down carbohydrate starch so that your animal can optimally transform this starch into energy. If not cooked sufficiently, carbohydrate starch is difficult to digest, which can lead to digestive disorders, increased flatulence and loose stools.

# SUPER PREMIUM

**Pet food are digestible balanced foods which offer the nutritional solution that meets the dogs or cats' needs at each period of their life and at every physiological stage**

## Protein Intake

Proteins are composed of different amino acids, the more varied their origin is, the more complete their intake is. In premium foods, the sources of protein are multiple: poultry meat, poultry livers, beef, fish (tuna, salmon). In addition, these foods are usually supplemented with essential amino acids such as methionine, which is not the case for standard quality kibbles. It is, therefore, possible to choose as the main source of protein one type of meat or fish most suitable and most appreciated by dogs or cats.

## No Risk of Deficiency or Excess

The foods are adapted to the needs of dogs or cats. They are not the same but relevant to the pet's size, age, level of activity. They provide the ideal dosage for each case: growth, adult, senior, small or large breed, very active or sedentary, sterilized, overweight, etc.

For example, a "growth" food is rich in calcium because the puppy needs this element to grow and strengthen its skeleton, whereas a "senior" food is, on the contrary, limited in calcium in order to avoid hyper-calcifications.

## Overall Benefits Prevail Over the Higher Cost for Super Premium Pet Food

The cost per bag is greater for a much higher quality compared to standard kibbles but the quantity of super premium kibbles distributed each day is less compared to standard kibbles. A good diet is the basis of a healthy life and limits the risks of diseases linked to growth, obesity or old age. Many inconveniences considered as minor (frequent diarrhea, hair loss, scratching for no reason) can decrease or even disappear thanks to a diet of premium quality.

## Well Digestible Food

The quality of the raw materials used for the manufacture of premium food and the control of the manufacturing processes (extrusion which preserves the vitamins, elimination of fats) have the advantage of providing highly digestible food.

This digestibility allows almost complete assimilation of nutrients by the dog or the cat. This limits the risk of diarrhea and various digestion problems, especially for puppies.

One of the direct consequences is a decrease in the stools. They become less frequent and less odorous. They are more molded and firmer. They also degrade more quickly. This obviously has a significant advantage for owners.

## Fat Intake

Fat represents an essential source of energy and contributes to the palatability of the food. In super premium foods, certain fats are selected for their contribution of essential fatty acids. They are also present in quantities adapted to the cat or dog needs.

For example, more fat will be put in a food for sporting dogs that burns a lot of calories and less in a food designed for dogs with a tendency to be overweight. Here you can see the advantages of super premium foods: they are very well adapted to the dog's physiological condition and lifestyle. Standard quality kibbles are often too fatty to increase energy power and improve taste at a lower cost.

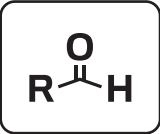

## Fiber Intake

Standard foods often provide only poorly digestible fiber (cellulose) while a premium food will have more varied and better-quality sources of fiber (vegetables). This has an impact on the digestibility of the food as well as on the intestinal transit of a dog or cat. And on its stool!

# MAIN FEATURES

## Nutritional benefits of pet food

**Single Carbohydrate**  
Rice as an easily digestible and gluten-free carbohydrate

**Mini Kibble**  
Small croquettes geared to the pet's chewing capacity

**Urinary Care**  
Maintaining the health of an adult pet's urinary system

**Hairball Control**  
The increased vegetable fiber content assists with digestion to reduce hairballs

**Cell Protection**  
Vitamins and Selenium to strengthen the immune system

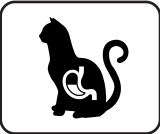

**Herbs & Spices**  
Natural support of digestive, renal, immune systems

**Grain Free**  
Without grain for sensitive digestion

**Mono Protein**  
One type of protein source: meat or fish

**Best Digestion**  
Dietary plant fiber for optimum digestion

**Skin & Coat Care**  
Omega-3 & Omega-6 essential fatty acids

**Odor Control**  
Reduction of the smell of stools

**Joints & Bones**  
Glucosamine and Chondroitin support the functionality of cartilage and joints

1801   Kibble size: 9x8 mm  0,08 / 0,5 / 1,5 / 3

## ADULT CAT

### Chicken Dinner

SWISS ENERGY PETS Balanced and Complete Granulated Dry Food with Chicken for Adult Cats. Its nutrient levels are oriented towards the maintenance of a healthy weight and daily energy.

**35% CRUDE PROTEIN 16% CRUDE FAT**

**Composition:** Dehydrated chicken meat (36%), corn, rice, poultry fat, apple pomace, extruded linseed, brewer's yeast, salmon oil, spice blend (turmeric 1.3 g/kg, juniper 1.2 g/kg, coriander 900 mg/kg, chervil 500 mg/kg, green tea 500 mg/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

	Skin & Coat Care		Best Digestion		Herbs & Spices
	Odor Control		Urinary Care		Mono Protein

1803   Kibble size: 10x10 mm  0,08 / 0,5 / 1,5 / 3

## SENIOR CAT

### Grain Free Fish & Sweet Potato Dinner

SWISS ENERGY PETS Complete Dietary Grain-free Granulated Dry Food with Fish & Sweet Potato for reducing or maintaining the optimal weight of Senior Cats. It's free of gluten and cereals. For pets approximately more than 10 years old with sensitive digestion.

**32% CRUDE PROTEIN 12% CRUDE FAT**

**Composition:** Dehydrated fish meat (20%), sweet potato, peas, pork creton (8%), poultry fat, apple pomace, potatoes, flax seeds, beer yeast, salmon oil, spice blend (turmeric 1.3 g/kg, juniper 1.2 g/kg, coriander 900 mg/kg, chervil 500 mg/kg, green tea 500 mg/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%), glucosamine (0.02%), chondroitin (0.01%).

	Skin & Coat Care		Best Digestion		Herbs & Spices
	Odor Control		Urinary Care		Mono Protein
	Cell Protection		Joints & Bones		Hairball Control

1802   Kibble size: 8x8 mm  0,08 / 0,5 / 1,5 / 3

## ADULT CAT

### Food with Fish

SWISS ENERGY PETS Balanced and Complete Granulated Dry Food with Fish for Adult Cats. Its nutrient levels are oriented towards the maintenance of a healthy weight and daily energy.

**35,5% CRUDE PROTEIN 16,5% CRUDE FAT**

**Composition:** Dehydrated poultry meat (20%), rice, dehydrated fish meat (14%), corn, poultry fat, corn protein, apple pomace, extruded linseed, brewer's yeast, salmon oil, spice blend (turmeric 1.3 g/kg, juniper 1.2 g/kg, coriander 900 mg/kg, chervil 500 mg/kg, green tea 500 mg/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

	Skin & Coat Care		Best Digestion		Herbs & Spices
	Odor Control		Urinary Care		Mono Protein

1805   Kibble size: 5x4 mm  0,08 / 0,5 / 1,5 / 3

## KITTEN

### Chicken Dinner

SWISS ENERGY PETS Balanced and Complete Granulated Dry Food with Chicken for Kittens. For rapid period of growth and development in pets less than 12 months of age.

**41% CRUDE PROTEIN 18% CRUDE FAT**

**Composition:** Dehydrated chicken meat (36%), rice, poultry fat, corn, corn protein, potato protein, extruded linseed, apple pomace, yeast of beer, salmon oil, spice blend (turmeric 1.3 g/kg, juniper 1.2 g/kg, coriander 900 mg/kg, chervil 500 mg/kg, green tea 500 mg/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

## STERILISED HOMECAT

### Chicken & Rice Dinner

SWISS ENERGY PETS Complete Dietary Granulated Dry Food with Chicken & Rice for reducing or maintaining the optimal weight of sterilised homecats. For adult neutered or spayed pets with reduced energy needs.

**34,5% CRUDE PROTEIN 11% CRUDE FAT**

**Composition:** Dehydrated chicken meat (22%), rice, corn, corn protein, vegetable fiber (6%), potato protein, poultry fat, extruded linseed, salmon oil, spice blend (turmeric 1.3 g/kg, juniper 1.2 g/kg, coriander 900 mg/kg, chervil 500 mg/kg, green tea 500 mg/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

1821   Kibble size: 12x10 mm  0,08 / 0,5 / 1,5 / 3

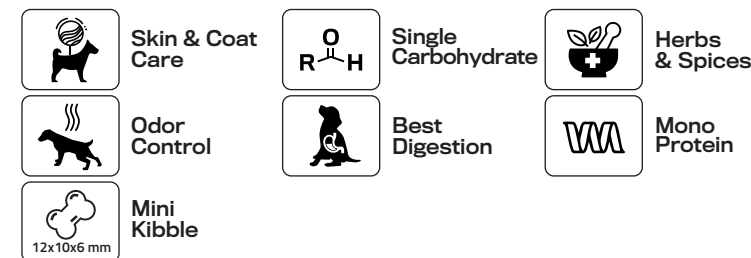

## MINI ADULT DOG

### Lamb & Rice Sensitive Dinner

SWISS ENERGY PETS Balanced and Complete Sensitive Granulated Dry Food with Lamb & Rice for Mini Adult Dogs. For adult pets of small to medium-sized breeds older than 12 months of age.

**25% CRUDE PROTEIN 15% CRUDE FAT**

**Composition:** Dehydrated lamb meat (20%), brown rice, white rice, potato protein, poultry fat, beet pulp, extruded linseed, brewer's yeast, salmon oil, spice blend (turmeric 1.5 g/kg, juniper 1.4 g/kg, coriander 1.0 g/kg, chervil 0.55 g/kg, green tea 0.55 g/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

1820   Kibble size: 12x12 mm  0,08 / 1,0 / 3

## MINI ADULT DOG

### Turkey & Rice Dinner

SWISS ENERGY PETS Balanced and Complete Granulated Dry Food with Turkey & Rice for Mini Adult Dogs. For adult pets of small to medium-sized breeds from the age of twelve months to approximately seven years old.

**26% CRUDE PROTEIN 15,5% CRUDE FAT**

**Composition:** Dehydrated poultry meat (24%, including dehydrated turkey meat 14%), brown rice, white rice, poultry fat, potato protein, beet pulp, linseed, extruded linseed, brewer's yeast, vegetable fibers, spice blend (turmeric 1.5 g/kg, juniper 1.4 g/kg, coriander 1.0 g/kg, chervil 0.55 g/kg, green tea 0.55 g/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).

1822   Kibble size: 7x9 mm  0,08 / 1,0 / 3

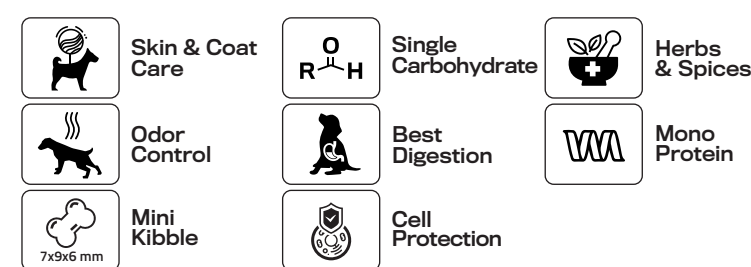

## MINI JUNIOR DOG

### Lamb & Rice Sensitive Dinner

SWISS ENERGY PETS Balanced and Complete Sensitive Granulated Dry Food with Lamb & Rice for Mini Junior Dogs. For puppies and young dogs of small to medium-sized breeds.

**29% CRUDE PROTEIN 16% CRUDE FAT**

**Composition:** Dehydrated lamb meat (20%), brown rice, white rice, potato protein, poultry fat, extruded linseed, beet pulp, salmon oil, brewer's yeast, vegetable fiber, sodium chloride, spice blend (turmeric 1.5 g/kg, juniper 1.4 g/kg, coriander 1.0 g/kg, chervil 0.55 g/kg, green tea 0.55 g/kg), fructooligosaccharides (0.5%), mannanoligosaccharides (0.2%), yucca Schidigera extracts (0.02%).
